
Continuous two-zone PWA examples: local stable cycles
HLB1: focus / focus
stable focus
unstable focus
$T = 6.64$, $M = 0.369$
HLB2: node / focus
stable node
unstable focus
$T = 7.12$, $M = 0.004$
y (dimensionless)
z (dimensionless)
stable cycle
$\dot{z} = 0$
$\dot{y} = 0$
threshold
equilibrium
